

D/E L-11 PREPARATION FOR 3-STEP FRAME

NOTE: OPENINGS MUST BE TOLD IF THE TOTAL-DOOR IS TO BE RETROFITTED INTO AN EXISTING TRIPLE STEPPED DOUBLE EGRESS FRAME AS OPPOSED TO OUR CUSTOMARY PLAIN CASED DOUBLE EGRESS FRAME. THIS SITUATION REQUIRES A DOUBLE EGRESS LOCKING CHANNEL SHORTENED BY AN ADDITIONAL $1/2$ " AND A HEAD STRIKE WHICH IS A $1/2$ " TALLER. THIS ALLOWS THE LOCKING CHANNEL TO CLEAR THE HEAD STOPS WHICH DO NOT STOP $1/8$ " SHORT OF THE FRAME CENTERLINE.
